Independent Auditor's Report

UNMODIFIED OPINIONS ON THE BASIC FINANCIAL STATEMENTS

Board of Directors
Region 15 Education Service Center
San Angelo, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Region 15 Education Service Center (the Center), as of and for the year ended August 31, 2019, and related notes to the financial statements, which collectively comprise the Center's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Region 15 Education Service Center, as of August 31, 2019, and the respective changes in financial position and, where applicable, the cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-11, budgetary comparison information on page 47, and net pension and other post-employment benefit liability information on pages 48-53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Region 15 Education Service Center's basic financial statements. The accompanying combining statements of revenues, expenditures and changes in fund balance for all general funds and all special revenue funds and combining statement of revenues, expenses and changes in net position for all proprietary funds are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards (SEFA), as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information and SEFA are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such other supplementary information and SEFA have been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this other supplementary information and SEFA are fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2019, on our consideration of the Center's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion in the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Center's internal control over financial reporting and compliance.

**REGION 15 EDUCATION SERVICE CENTER
MANAGEMENT’S DISCUSSION AND ANALYSIS**

This section of Region 15 Education Service Center’s annual financial report presents our discussion and analysis of the Center’s financial performance during the fiscal year ended August 31, 2019. Please read it in conjunction with the Center’s financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

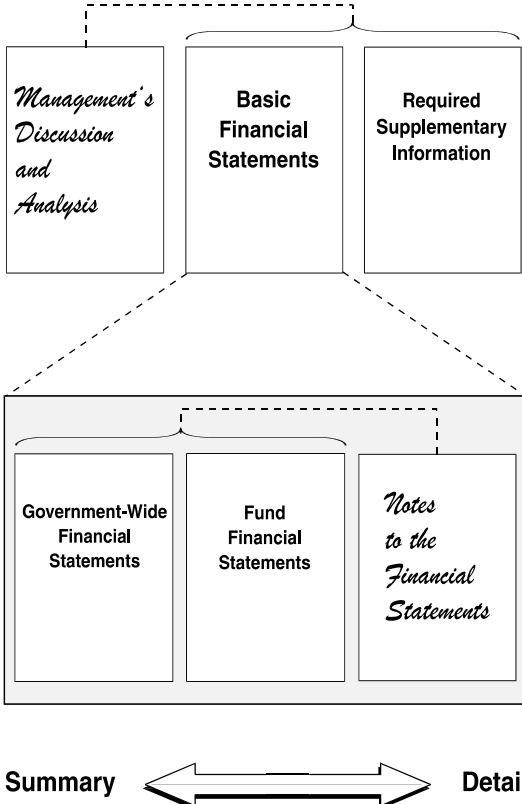

- The Center ended the year, August 31, 2019, with total net position of \$13,191,148, including unrestricted net position of \$7,669,846. The balance of cash and investments at August 31, 2019, was \$15,119,183.
- During the year, the Center generated \$15.9 million in grants, charges, and other revenues for governmental activities. In comparison to the prior year, revenues increased 14.4%, or approximately \$2.0 million and expenses increased 12.8%, or approximately \$1.8 million.
- The general fund reported a fund balance this year of \$11.5 million. This was an increase of approximately \$815,000 (7.6%). The total governmental fund balance for the Center increased approximately \$122,000 (0.8%).
- During the year ended August 31, 2019, the Center changed its reporting of certain funds from enterprise funds to internal service funds to more accurately represent the nature of these funds.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—*management’s discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the Center:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the Center’s *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the Center’s operations in *more detail* than the government-wide statements.
- The *governmental funds* statements tell how *general government* services were financed in the *short-term* as well as what remains for future spending.
- *Proprietary fund* statements offer *short-term* and *long-term* financial information about the activities the government operates *like businesses*.
- *Fiduciary fund* statements provide information about the financial relationships in which the Center acts solely as a *trustee* or *agent* for the benefit of others, to whom the resources in question belong.

Figure A-1. Required Components of the Center’s Annual Financial Report

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the Center’s financial statements, including the portion of the Center government they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis explains the structure and contents of each of the statements.

Government-wide Statements

The government-wide statements report information about the Center as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the government’s assets and liabilities. All of the current year’s revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Center’s *net position* and how it has changed. Net position—the difference between the Center’s assets and liabilities—is one way to measure the Center’s financial health or *position*.

- Over time, increases or decreases in the Center’s net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the Center, you need to consider additional non-financial factors such as changes in the Center’s client base or legislation that affects the Center.
- The Statement of Activities reflects services such as instructional, administrative, data processing, technology, special education, head start, early childhood, and general administration. Charges for services and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the Center’s most significant *funds*—not the Center as a whole. Funds are accounting devices that the Center uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law. The administration establishes other funds to control and manage money for particular purposes or to show that it is properly using certain fees and grants.

The Center has three kinds of funds:

- *Governmental funds*—Most of the Center’s basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Center’s programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

- *Proprietary funds*—Proprietary funds, like the government-wide statements, provide both long and short-term financial information.

The Center uses *internal service funds* to report activities that provide supplies and services for the Center’s other programs and activities—such as the print shop as well as an *enterprise fund* to report activities related to the purchasing coop.

- *Fiduciary funds*—The Center is the trustee, or *fiduciary*, for certain funds. The Center is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the Center’s fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the Center’s government-wide financial statements because the Center cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE CENTER AS A WHOLE

Our analysis focuses on the net position and changes in net position of the Center’s governmental activities.

Net position: The Center’s *combined* net position increased \$69,034 between fiscal years 2018 and 2019 to approximately \$13.2 million (see Table A-1).

Total assets increased by 1.3%, or about \$243,500, while total liabilities increased by 23.4%, or about \$903,600. The majority of this increase in liabilities was attributable to the increase in the OPEB liability due to the change in actuarial assumptions.

In the following tables, our analysis focuses on the net position (Table A-1) and changes in net position (Table A-4) of the Center's governmental and business-type activities.

Changes in net position: The Center's total revenues increased 14.4% to \$15.9 million (see Table A-4). The majority of the Center's revenues, 62.0%, came from grants while 35.5% related to charges for services. (See Figure A-3).

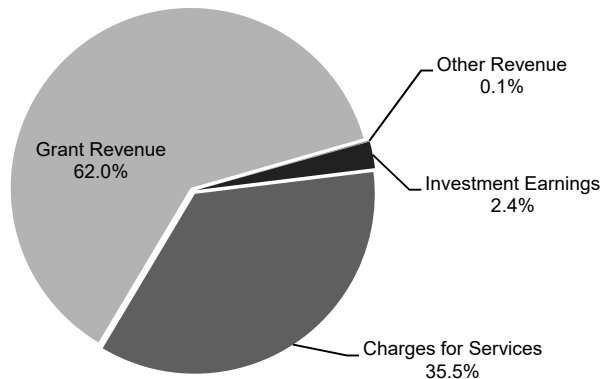

The total cost of all programs and services increased 12.8% to \$15.8 million. The majority of these costs, 64.7%, were for services related to instruction; curriculum and staff development; and school district administrative support. Another 9.7% of these costs were for payments to member districts of shared service arrangements.

- The Center's total expenditures for governmental activities increased approximately \$1.8 million from the prior year.
- The increases in revenue and expenses are largely due to the change in on-behalf revenue recognized by the Center related to the OPEB liability in the prior year.

Figure A-3 Sources of Revenue For Fiscal Year 2019

FINANCIAL ANALYSIS OF THE CENTER'S FUNDS

As the Center completed the year, the governmental fund balances reported a combined fund balance of \$14.7 million, about \$122,000 more than the prior year. The revenues from governmental fund types totaled \$15.6 million, an increase of \$928,746, or 6.3%, from the preceding year.

Local revenues increased \$286,172, to approximately \$6.0 million. This increase was primarily due to increases in services to member districts.

State revenues increased \$282,098, to approximately \$3.1 million. This increase was primarily due to receiving more from state funded grants.

Federal revenues increased \$360,476, to approximately \$6.5 million. This increase was primarily due to increased revenues across all programs.

General Fund Budgetary Highlights

Over the course of the year, the Center amended its budget several times. There were no significant revisions.

After the budget amendments, actual expenditures were approximately \$4.7 million, or about 42.0%, below final budget amounts. Revenues available were approximately \$7.6 million, or about 32.5%, below the final budgeted amount. Revenues and expenditures came in under budget by these amounts because construction to be reimbursed with an E-Rate grant was fully budgeted, but not completed in the current year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Region 15 Education Service Center ended the 2018-2019 fiscal year in a healthy financial condition. For the 2019-2020 fiscal year, the Center approved a 3% of mid-point increase in salaries for all employees in an effort to remain competitive in the job market.

For the 2019-2020 year the Center was awarded the statewide lead role for the Small and Rural School Network grant with funding of \$1 million to provide training and resources for identified small and rural schools in Texas to help in the provision of special education for their students. The Center was also awarded \$2.3 million in funding over 5 years from U.S. Department of Education Mental Health Service Professional Demonstration Grant Program. This grant is a collaborative partnership between the Center and Angelo State University to increase the number of school counselors employed and retained within the region. There will be a specialized focus on rural areas that lack access to mental health services and personnel.

With increased focus by TEA statewide on campuses identified as Comprehensive and/or Improvement Required (IR), TEA has awarded ESCs new funding through the Comprehensive School Support grant and the School Improvement Facilitation grant. This is an additional \$600,000 in funding to assist these identified campuses and now a great emphasis exists to make significant gains in these districts through combined local campuses and Center efforts.

The close of the 86th Legislative session brought about many significant impacts to the region's school districts such as HB3906 with regards to state assessment and school accountability, many bills on school safety in regards to mental health, cybersecurity, and establishing taskforces, and lastly HB3 which is a major overhaul to school finance and education. As the impacts of new legislation are unfolding the Center continues to support districts with a variety of timely, economical, and efficient services to help meet their diverse needs.

The leadership team of the Center maintains a standard that demonstrates and promotes efficient fiscal management in all aspects of the Center's operations. The Center is constantly looking for ways to add value to its services for the region's schools through improved techniques for content delivery, reduced costs, and shared service arrangements.

The Center has become more efficient in the use of its resources while continuing to create partnerships with the region's LEA's, the local university, and other vital organizations in the community. Most importantly, the Center strives to be the first choice partner in meeting the educational needs of all students in Region 15.

	Total Fund Balances - Governmental Funds (Exhibit C-1)	\$ 14,730,970
1	Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the end of the year, the cost of these assets was \$6,537,683 and the accumulated depreciation was (\$4,566,987). The net effect of including these balances of capital assets (net of depreciation) is to increase net position.	1,970,696
2	The Center uses internal service funds to charge the costs of certain activities to appropriate functions in other funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase net position.	1,559,269
3	Accrued compensated absences is long-term in nature and is not recorded in the governmental funds. The recognition of this liability in the government-wide financial statements results in a decrease to net position.	(306,000)
4	Included in the items related to debt is the recognition of the Center's proportionate share of the net pension liabilities required by GASB 68 in the amount of (\$198,472) and deferred resource inflows and outflows related to this liability in the amounts of (\$17,416) and \$133,495, respectively. This amounted to a decrease in net position.	(82,393)
5	The recognition of the Center's proportionate share of the net other post-employment benefit liability is required by GASB 75. This recognition included net OPEB liability of (\$4,041,768) and deferred resource inflows and outflows of (\$1,278,104) and \$638,478, respectively. This amounted to a decrease in net position.	<u>(4,681,394)</u>

EXPENDITURES, AND CHANGES IN FUND BALANCES
OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED AUGUST 31, 2019

Net Change in Fund Balances - Total Governmental Funds (Exhibit C-3) \$ 121,513

Amounts reported for governmental activities in the statement of activities (Exhibit B-1) are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period, net of adjustments. (200,420)

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue (expense) of the internal service fund is reported with governmental activities (Exhibit D-2). 328,072

The change in the compensated absences liability during the year results in a decrease in the change to net position. (65,000)

The implementation of GASB 68 required the recognition of certain expenditures related to the recognition of the net pension liability. The result of this activity causes an increase to the change in net position. (27,314)

The implementation of GASB 75 required the recognition of certain expenditures related to the recognition of the net OPEB liability. The result of this activity causes a decrease to the change in net position. (87,817)

REGION 15 EDUCATION SERVICE CENTER

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Region 15 Education Service Center (the Center) prepares its basic financial statements in conformity with accounting principles generally accepted in the United States of America promulgated by the Governmental Accounting Standards Board (GASB) applicable to governmental units. The Center also complies with the appropriate version of the Texas Education Agency's (TEA) Financial Accountability System Resource Guide (FASRG) and the requirements of contracts and grants of agencies from which it receives funds. GASB is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the Center are described below.

A. REPORTING ENTITY

The Board of Directors, a seven-member group, has governance responsibilities over all activities related to education services within the jurisdiction of the Center. The Board of Directors has the authority to make decisions, appoint administrators and managers, and significantly influence operations; and has the primary accountability for fiscal matters. The Center is not included in any other governmental "reporting entity" as defined in Governmental Accounting and Financial Reporting Standards. There are no component units included within the reporting entity.

Since the Center received funding from local, state, and federal government sources, it must comply with the requirements of the entities providing those funds.

B. BASIS OF ACCOUNTING AND PRESENTATION

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities display information about the government-wide entity as a whole. These statements report information on all of the non-fiduciary activities of the Center. For the most part, the effect of interfund activity has been removed from these statements. Governmental Activities, which normally are supported by intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support (i.e., internal service funds are considered governmental activities and not business-type activities). The Center currently has no business-type activities.

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities on the Statement of Net Position. However, the Center has no long-term debt to report.

These government-wide financial statements were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

REGION 15 EDUCATION SERVICE CENTER

NOTES TO FINANCIAL STATEMENTS

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Other items not properly included among program revenues are reported instead as general revenues.

Interfund activities between governmental funds and proprietary funds appear as due to/due from on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Net Position. All interfund transactions between governmental funds and the internal service fund are eliminated on the government-wide statements.

The Center reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the Statement of Activities. Depreciation expense is specifically identified by function and is included in the direct expense to each function allocated.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses would be non-operating; however the Center had none.

FUND FINANCIAL STATEMENTS

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. Major governmental funds are reported as separate columns in the fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues from local sources consist primarily of charges for services. State revenues are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, claims and judgments are recorded only when payment is due.

REGION 15 EDUCATION SERVICE CENTER

NOTES TO FINANCIAL STATEMENTS

Proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The Center applies all GASB pronouncements, as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses would be non-operating.

GOVERNMENTAL FUND TYPES

The Center reports the following major governmental funds:

General Fund – This fund is established to account for resources used for general operations. All general revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. This is a budgeted fund and undesignated fund balances are considered resources available for current operations.

Major Special Revenue Funds – SSA Head Start, Early Childhood Intervention (ECI), and Chapter 41 WADA Fund are reported as a major funds and accounted for as described below.

Additionally, the government reports the following fund types:

Other Special Revenue Funds – These funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal financial assistance generally is accounted for in a special revenue fund. Except in limited circumstances, any unused balances are returned to the grantor at the close of specified project periods. For all other funds in this fund type, project accounting is employed to maintain integrity for the various sources of funds.

PROPRIETARY FUND TYPES

Internal Service Funds – Internal service funds are used to account for revenues and expenses related to services provided to parties primarily inside the Center, specifically for the operation of its building activities, Center-wide labor pool, duplication, and other services.

C. BASIS OF ACCOUNTING APPLICABLE TO ALL FINANCIAL STATEMENTS

Capital assets, which include buildings and improvements, furniture and equipment, vehicles, and work in progress are reported in the government-wide financial statements. Capital assets are defined by the Center as assets with an individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets useful lives are not capitalized.

REGION 15 EDUCATION SERVICE CENTER

NOTES TO FINANCIAL STATEMENTS

Revenues from state and federal grants are considered to be earned to the extent of expenditures made under the provisions of the grant. Funds received but unexpended are reflected as unearned revenues, and funds expended but not yet received are shown as receivables. If balances have not been expended by the end of the project period, grantors generally require the Center to refund all or part of the unused amount.

Supplies and materials are debited as expenditures when purchased, except for some small inventory items in the Internal Service Fund.

It is the Center's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. Upon retirement or death of certain employees, the Center pays any accrued sick and vacation leave in a lump sum payment. This liability is recorded on the statement of net position.

Since Internal Service Funds support the operations of governmental funds, they are consolidated with the governmental funds in the government-wide financial statements. The expenditures of governmental funds that create the revenues of internal service funds are eliminated to avoid "grossing up" the revenues and expenses of the Center as a whole.

In the event that the Center incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.

In accordance with the FASRG, the Center has adopted and installed an accounting system which exceeds the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. Specifically, the Center's accounting system uses codes and the code structure presented in the Accounting Code Section of the FASRG. Mandatory codes are utilized in the form provided in that section.

D. BUDGETARY DATA

The official budget was prepared on the modified accrual basis of accounting, which is consistent with accounting principles generally accepted in the United States of America, for the general fund. The remaining special revenue funds adopt project-length budgets which do not correspond to the Center's fiscal year.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- a. Prior to August 20 of the preceding fiscal year, the Center prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least 10 days public notice of the meeting must be given.
- c. Prior to September 1, the budget is legally enacted by the Board.

REGION 15 EDUCATION SERVICE CENTER

NOTES TO FINANCIAL STATEMENTS

The budget is prepared and controlled at the function level within each fund and is amended at this level as needed. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. Such amendments are made before the fact and they are reflected in the official minutes of the Board. During the year, several amendments were necessary.

E. ENCUMBRANCE ACCOUNTING

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no outstanding encumbrances at August 31, 2019.

F. CASH AND CASH EQUIVALENTS – PROPRIETARY FUNDS

For purposes of the Statement of Cash Flows for proprietary fund types, the Center considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.

G. FUND EQUITY

The Center has adopted GASB Statement 54, which redefined how fund balances of the governmental funds are presented in the financial statements. Fund balances are classified as follows:

Restricted – Portion of fund balance that is constrained for specific purposes because of restrictions by third parties (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – Portion of fund balance that is constrained for specific purposes by the highest level of decision making authority (Board of Directors). Only this same authority can un-commit funds.

Assigned – Portion of fund balance that can be used for a specific purpose as expressed by the authorized administrator, the Executive Director.

Unassigned – Amounts not included in other spendable classifications.

The Center's Board of Directors has committed \$8,730,474 of the General Fund's fund balance for future construction, capital expenditures and other purposes. In addition the Center has assigned \$1,459,000 for construction.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Center considers restricted funds to have been spent first. When an expenditure for which committed, assigned, or unassigned fund balances are available, the Center considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

REGION 15 EDUCATION SERVICE CENTER

NOTES TO FINANCIAL STATEMENTS

The Center administers the special revenue fund entitled the Chapter 41 WADA Fund. The balances of excess revenues received, including Region 15 Education Service Center's share of wealth equalization agreements, over expenditures incurred related to the consortium is reported as restricted fund balance of \$3,252,312 at August 31, 2019.

H. NET POSITION ON THE STATEMENT OF NET POSITION

Net position on the Statement of Net Position include the following:

Net Investment in Capital Assets – this component of net position represents the difference between capital assets less accumulated depreciation.

Restricted for Other Purposes – this component of net position represents amounts restricted for specific purposes. This includes the balance in the Chapter 41 WADA Fund.

Unrestricted – the difference between assets and liabilities that is not reported in Restricted Net Position or Net Investment in Capital Assets.

I. PENSIONS

The fiduciary net position of the Teacher Retirement System (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

J. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

The fiduciary net position of the TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this a pay-as-you-go plan and all cash is held in a cash account.

K. MANAGEMENT'S USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

Legal and Contractual Provisions Governing Deposits and Investments

The **Public Funds Investment Act** (Government Code Chapter 2256) (the Act) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the Center to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

Statutes authorize the Center to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds. The Act also requires the Center to have independent auditors perform test procedures related to investment practices as provided by the Act. The Center is in substantial compliance with the requirements of the Act and with local policies.

Policies Governing Deposits and Investments

In compliance with the **Public Funds Investment Act**, the Center has adopted a deposit and investment policy. That policy does not address the following risks:

- a. Custodial Credit Risk – Deposits and Investments: In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits and investments in certificates of deposits may not be returned to it. The Center's policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits and investments, other than the following: The State of Texas requires that a financial institution secure deposits and investments made by state or local governments by pledging securities in excess of the highest cash balance of the government. The Center is not exposed to custodial credit risk for its deposits and investments in certificates of deposit are all covered by depository insurance and pledged securities held by a third party in the Center's name.
- b. Concentration of Credit Risk – The investment policy of the Center contains no limitations on the amount that can be invested in any one issuer. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent five percent or more of the total entity investments represent a concentration risk. At August 31, 2019, the Center had no significant investment balances.
- c. Credit Risk – Not applicable.
- d. Interest Rate Risk – Not applicable.
- e. Foreign Currency Risk – Not applicable.

Public Funds Investment Pools

Public Funds Investment Pools in Texas (Pools) are established under the authority of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) Have an advisory board composed of participants in the Pool and other persons who do not have a business relationship with the Pool and are qualified to advise the Pool; 2) Maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and, 3) Maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares. The Center’s investment in Pools are reported at an amount determined by the fair value per share of the Pool’s underlying portfolio, unless the Pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission (SEC) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940.

3. PROPERTY TAXES

The Center does not assess or collect property taxes.

4. DUE FROM OTHER GOVERNMENTS

7. UNEARNED REVENUES

Governmental funds report unearned revenue in connection with revenues that are not considered to be available to liquidate liabilities of the current period. The balance of unearned revenues at August 31, 2019 was \$500 recognized in the general fund.

8. DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

The financial statements report separate sections for deferred outflows and inflows of resources. Deferred outflows represent an acquisition of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until that time. Deferred inflows represent an acquisition of fund balance that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

Deferred Inflows and Outflows on the Statement on Net Position consist of the following:

	<u>Deferred Outflows</u>	<u>Deferred Inflows</u>
Pension Related (See Note 12)	\$ 133,495	\$ 17,416

12. DEFINED BENEFIT PENSION PLAN

Plan Description

The Center participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the TRS's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trsx.texas.gov>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592. The information provided in the Notes to the Financial Statements in the 2018 Comprehensive Annual Financial Report for TRS provides the following information regarding the Pension Plan fiduciary net position as of August 31, 2018 and 2017.

REGION 15 EDUCATION SERVICE CENTER

NOTES TO FINANCIAL STATEMENTS

Components of the net pension liability of the TRS plan as of August 31, 2018 and 2017 are as follows:

Net Pension Liability	2018	2017
Total Pension Liability	\$ 209,611,328,793	\$ 179,336,534,819
Less: Plan Fiduciary Net Position	<u>(154,568,901,833)</u>	<u>(147,361,922,120)</u>

Net Position as Percentage of Total Pension Liability	73.74%	82.17%

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with five years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with five years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule.

There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the plan description above.

Contributions

Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10.0% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code Section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 through 2017. The 85th Texas Legislature, General Appropriations Act (GAA) affirmed that the employer contribution rates for fiscal years 2018 and 2019 would remain the same.

REGION 15 EDUCATION SERVICE CENTER

NOTES TO FINANCIAL STATEMENTS

The following tables show contributions to the TRS plan by type of contributor:

	Contribution Rates	
	2018	2019
Member	7.70%	7.70%
Non-Employer Contributing Entity (State)	6.80%	6.80%
Employers	6.80%	6.80%
2019 Employer Contributions	\$	5,408
2019 Member Contributions	\$	521,684
2018 NECE On-Behalf Contributions	\$	431,289

Contributors to the plan include members, employers, and the State of Texas as the only non-employer contributing entity. The State is the employer for state agencies including TRS. In that role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers.

Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding source or a privately sponsored source.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instruction or administrative employees; and 100% of the state contribution rate for all other employees.

Actuarial Assumptions

Roll Forward – A change was made in the measurement date of the total pension liability for the 2018 measurement year. The actuarial valuation was performed as of August 31, 2017. Update procedures were used to roll forward the total pension liability to August 31, 2018. This is the first year using the roll forward procedures.

REGION 15 EDUCATION SERVICE CENTER

NOTES TO FINANCIAL STATEMENTS

The total pension liability is determined by an annual actuarial valuation. The actuarial methods and assumptions were selected by the Board of Trustees based upon analysis and recommendations by the System's actuary. The Board of Trustees has the sole authority to determine the actuarial assumptions used for the plan. The active mortality rates were based on 90% of the RP 2014 Employee Mortality Tables for males and females. The post-retirement mortality rates were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables.

The following table discloses the assumptions that were applied to the measurement period:

Valuation Date	August 31, 2017, rolled forward to August 31, 2018
Actuarial Cost Method	Individual Entry Age - Normal
Discount Rate	6.907%
Long-Term Expected Investment Rate of Return	7.250%
Municipal Bond Rate at August 31, 2018	3.690% *
Last year ending August 31 in Projection	
Period (100 years)	2116
Inflation	2.300%
Salary Increases Including Inflation	3.050% to 9.050% including inflation
Payroll Growth Rate	2.50%
Ad hoc Post-Employment Benefit Changes	None

* - Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2017 and adopted in July 2018.

Discount Rate

The discount rate used to measure the total pension liability was 6.907%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

REGION 15 EDUCATION SERVICE CENTER

NOTES TO FINANCIAL STATEMENTS

Pension Liabilities and Pension Expense

At August 31, 2019, the Center reported a liability of \$198,472 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the Center. The amount recognized by the Center as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the Center were as follows:

Center's Proportionate Share of the Collective Net Pension Liability	\$	198,472
State's Proportionate Share that is Associated with the Center		<u>7,051,286</u>
Total	\$	<u><u>7,249,758</u></u>

The net pension liability was measured as of August 31, 2017 and rolled forward to August 31, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2017 rolled forward to August 31, 2018. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2017 through August 31, 2018.

At August 31, 2018 the employer's proportion of the collective net pension liability was 0.0003606% which was a decrease of 0.000008% from its proportion measured as of August 31, 2017.

For the year ended August 31, 2019, the Center recognized pension expense of \$697,889 and revenue of \$431,289 for support provided by the State.

Changes since the Prior Actuarial Valuation

Assumptions, methods, and plan changes which are specific to the Pension Trust Fund were updated from the prior year's report. The Net Pension Liability increased significantly since the prior measurement date due to a change in the following actuarial assumptions:

- The total pension liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.
- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants were updated based on the same experience study.
- The discount rate changed from 8.00% as of August 31, 2017 to 6.907% as of August 31, 2018.
- The long-term assumed rate of return changed from 8.00% to 7.25%.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the net pension liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

NOTES TO FINANCIAL STATEMENTS

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2019, the Center reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Economic Experience	\$ 1,237	\$ 4,870
Changes in Actuarial Assumptions	71,559	2,236

13. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description

The Center participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers, and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may pay premiums to participate in the high-deductible health plans. Eligible Medicare retirees and their dependents may pay premiums to participate in the Medicare Advantage health plans. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for the optional health insurance are based on years of service of the member.

The schedule below shows the monthly rates for the average retiree with and without Medicare coverage. These new premium rates for retirees with Medicare Part A and Part B became effective January 1, 2018.

TRS-Care Plan Premium Rates			
Effective January 1, 2018 - December 31, 2018			
	Medicare	Non-Medicare	
Retiree or Surviving Spouse	\$ 135	\$ 200	
Retiree and Spouse	529	689	
Retiree or Surviving Spouse and Children	468	408	
Retiree and Family	1,020	999	

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding.

REGION 15 EDUCATION SERVICE CENTER

NOTES TO FINANCIAL STATEMENTS

Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, Section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act which is 0.75% of each active employee's pay for fiscal year 2018.

The following tables show contributions to the TRS-Care plan by type of contributor:

	Contribution Rates	
	2018	2019
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/Private Funding Remitted by Employers	1.25%	1.25%
2019 Employer Contributions	\$	50,813
2019 Member Contributions		44,038
2018 NECE On-Behalf Contributions		81,524

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS-Care, a monthly surcharge of \$535 per retiree.

Actuarial Assumptions

The total OPEB liability in the August 31, 2017 actuarial valuation was rolled forward to August 31, 2018. The actuarial valuation was determined using the following actuarial assumptions.

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2017 TRS pension actuarial valuation that was rolled forward to August 31, 2018:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Expected Payroll Growth
Rates of Disability Incidence

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2017 rolled forward to August 31, 2018
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	3.69%*
Aging Factors	Based on Plan Specific Experience
Election Rates	Normal Retirement 70% participation prior to age 65 and 75% participation after age 65
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Projected Salary Increases	3.05% to 9.05%
Ad Hoc Post-Employment Benefit Changes	None

* - Sourced from fixed income municipal bonds with 20 years to maturity that include only federal tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of August 31, 2018

Discount Rate

A single discount rate of 3.69% was used to measure the total OPEB liability. There was an increase change of 0.27% in the discount rate since the previous year. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.690%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (2.690%)	Discount Rate (3.690%)	1% Increase in Discount Rate (4.690%)

Healthcare Cost Trend Rates Sensitivity Analysis

The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is 1% point lower or 1% point higher than the assumed healthcare cost trend rate.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
Center's Proportionate Share of the Net OPEB Liability	\$ 3,356,754	\$ 4,041,768	\$ 4,943,946

OPEB Liabilities and OPEB Expense

At August 31, 2019, the Center reported a liability of \$4,041,768 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the Center. The amount recognized by the Center as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the Center were as follows:

Center's Proportionate Share of the Collective Net OPEB Liability	\$ 4,041,768
State's Proportionate Share that is Associated with the Center	<u>5,909,010</u>
Total	<u>\$ 9,950,778</u>

The Net OPEB Liability was measured as of August 31, 2018 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2017 through August 31, 2018.

At August 31, 2018, the employer's proportion of the collective net OPEB liability was 0.0080947% which was a decrease of 0.000556% proportion measured as of August 31, 2017.

For the year ended August 31, 2019, the Center recognized OPEB expense of \$214,934 and revenue of \$81,524 for support provided by the State.

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018. This change increased the Total OPEB Liability.
- The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020. This change increased the Total OPEB Liability.
- Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. This change increased the Total OPEB Liability.
- The discount rate changed from 3.42% as of August 31, 2017 to 3.69% as of August 31, 2018. This changed lowered the Total OPEB Liability by \$2.3 billion.

Changes in Benefit Terms

The 85th Legislature, Regular Session passed the following statutory changes which became effective on September 1, 2017:

- Created a high-deductible health plan that provides a zero cost for generic prescriptions for certain preventative drugs and provides a zero premium for disability retirees who retired as a disability retiree on or before January 1, 2017 and are not eligible to enroll in Medicare.
- Created a single Medicare Advantage Plan and Medicare prescription drug plan for all Medicare – eligible participants.
- Allowed the System to provide other, appropriate health benefit plans to address the needs of enrollees eligible for Medicare.
- Allowed eligible retirees and their eligible dependents to enroll in TRS-Care when the retiree reaches 65 years of age, rather than waiting for the next enrollment period.
- Eliminated free coverage under TRS-Care, except for certain disability retirees enrolled during the Plan Years 2018 through 2021, requiring members to contribute \$200 per month toward their health insurance premiums.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2019, the Center reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Actuarial Experience	\$ 214,482	\$ 63,785
Changes in Actuarial Assumptions	67,446	1,214,319
Difference Between Projected and Actual Investment Earnings	707	
Changes in Proportion and Difference Between the Employer's Contributions and the Proportionate Share of Contributions	305,030	
Contributions Paid to TRS Subsequent to the Measurement Date	50,813	
Total	<u>\$ 638,478</u>	<u>\$ 1,278,104</u>

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEBs will be recognized in pension expense as follows:

	Pension Expense Amount
2020	\$ (121,128)
2021	(121,128)
2022	(121,128)
2023	(121,261)

14. INSURANCE COVERAGE

The Center is a participant in the Texas Association of School Boards (TASB) Workers' Compensation Self-Insurance Fund (the Fund). The associated costs are accounted for in the General Fund and allocated to all funds. The Fund is protected against unanticipated catastrophic loss by stop loss insurance coverage. The Claims Administrator for the pool has estimated the Center's share of unpaid claims as of August 31, 2019, to be immaterial. The Center has not recorded any claims payable at August 31, 2019, related to this liability.

During the year ended August 31, 2019, Region 15 Education Service Center participated in the TRS health insurance plan. The Center contributes a maximum of \$500 per month per employee to the plan, and employees, at their option, authorized payroll withholdings to pay contributions for dependents. The TRS requires each center to contribute premiums in order to fund administrative costs and health insurance claims.

Payments made on behalf of the Center by the state for Medicare, Part D fringe benefits and salaries amounted to \$25,234 and \$18,933 for the years ended August 31, 2019 and 2018, respectively.

15. LITIGATION

Management represents there is no litigation pending against the Center which would have a material effect on the financial statements.

16. COMMITMENTS AND CONTINGENCIES

Federal and State Funding

The Center participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the Center has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable may be impaired.

In the opinion of the Center, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

Operating Leases

The Center has entered into several operating leases for various space and equipment items. Minimum amounts due under the lease agreements for the next two years are as follows:

2020	\$	29,968
2021		33,435

Lease expenditures during 2018-2019 were \$32,375.

17. SHARED SERVICE ARRANGEMENTS

The Center is the fiscal agent for five Shared Services Arrangements (SSAs) which provide services for various member school districts under federal grants. All services are provided by the fiscal agent. The Center accounts for the SSAs in special revenue funds prescribed by TEA in its FASRG. The Center utilizes the account codes and procedures outlined in the FASRG for SSAs using the applicable model.

A brief description of these models are as follows:

Model #1 – The fiscal agent receives the program funds from the granting agency and retains a portion of the monies for administrative and other services provided by the Center. The remainder of the monies flows to participating member school districts.

Model #2 – The fiscal agent receives the program funds from the granting agency and administers the program. The fiscal agent manages the SSAs financial matters, including budgeting, accounting, auditing and reporting.

Model #3 – Member school districts and/or education service centers agree to combine resources to provide a certain service. The fiscal agent manages the SSAs financial matters, including budgeting, accounting, auditing, and reporting.

Expenditures and other applicable information on the Center’s SSAs are noted below:

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

A. NOTES TO SCHEDULES FOR THE TRS PENSION

Changes of Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of Assumptions

Assumptions, methods, and plan changes which are specific to the Pension Trust Fund were updated from the prior year's report. The Net Pension Liability increased significantly since the prior measurement date due to a change in the following actuarial assumptions:

- The total pension liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.
- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants were updated based on the same experience study.
- The discount rate changed from 8.00% as of August 31, 2017 to 6.907% as of August 31, 2018.
- The long-term assumed rate of return changed from 8.00% to 7.25%.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the net pension liability.

B. NOTES TO SCHEDULES FOR THE TRS OPEB PLAN

Changes of Benefit Terms

The 85th Legislature, Regular Session passed the following statutory changes which became effective on September 1, 2017:

- Created a high-deductible health plan that provides a zero cost for generic prescriptions for certain preventative drugs and provides a zero premium for disability retirees who retired as a disability retiree on or before January 1, 2017 and are not eligible to enroll in Medicare.
- Created a single Medicare Advantage Plan and Medicare prescription drug plan for all Medicare—eligible participants.
- Allowed the System to provide other, appropriate health benefit plans to address the needs of enrollees eligible for Medicare.
- Allowed eligible retirees and their eligible dependents to enroll in TRS-Care when the retiree reaches 65 years of age, rather than waiting for the next enrollment period. Eliminated free coverage under TRS-Care, except for certain disability retirees enrolled during the Plan Years 2018 through 2021, requiring members to contribute \$200 per month toward their health insurance premiums.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Changes of Assumptions

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018. This change increased the Total OPEB Liability.
- The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020. This change increased the Total OPEB Liability.
- Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. This change increased the Total OPEB Liability.
- The discount rate changed from 3.42% as of August 31, 2017 to 3.69% as of August 31, 2018. This change lowered the Total OPEB Liability by \$2.3 billion.

In this valuation, the impact of the Cadillac Tax has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annually by 2.50%.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis point addition to the long-term trend rate assumption.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Independent Auditor's Report

Board of Directors
Region 15 Education Service Center
San Angelo, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Region 15 Education Service Center as of and for the year ended August 31, 2019, and related notes to the financial statements, which collectively comprise the Center's basic financial statements and have issued our report thereon dated December 18, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Region 15 Education Service Center's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinions on the effectiveness of Region 15 Education Service Center's internal control. Accordingly, we do not express an opinion on the effectiveness of Region 15 Education Service Center's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Region 15 Education Service Center's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL
CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE**

Independent Auditor's Report

Board of Directors
Region 15 Education Service Center
San Angelo, Texas

Report on Compliance for Each Major Federal Program

We have audited Region 15 Education Service Center's (the Center) compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the Center's major federal programs for the year ended August 31, 2019. Region 15 Education Service Center's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Center's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Region 15 Education Service Center's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Center's compliance.

Opinion on Each Major Federal Program

In our opinion, Region 15 Education Service Center complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2019.

Report on Internal Control Over Compliance

Management of Region 15 Education Service Center is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Center's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Center's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

REGION 15 EDUCATION SERVICE CENTER

**NOTES TO THE SUPPLEMENTARY SCHEDULE OF
EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED AUGUST 31, 2019**

Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Region 15 Education Service Center under programs of the federal government for the year ended August 31, 2019. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Summary of Significant Accounting Policies

- (A) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement.
- (B) Region 15 Education Service Center has not elected to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.
